

POWER DISTRIBUTION SOLUTIONS

Next Generation Power Distribution

Remote Power Distribution

- 2 or 4 panelboards
- 1,2 or 4 inputs
- 225 A or 400 A input
- 225 A or 400 A panels

Power Distribution Unit

- 30 -300 KVA
- 2-6 panelboards
- Main output circuit breakers
- Available I-Line TM output bus

Centralized Power Distribution

- 225 -800 KVA
- Up to 14 output breakers
- Complete monitoring

TRULY INNOVATIVE SOLUTIONS FOR POWER QUALITY

POWER DISTRIBUTION SOLUTIONS

Next Generation Power Distribution

Server Rack PDU

- 15–150 kVA
- 2 panelboards
- Server rack form factor

Critical Power Center

- 30 -300 KVA
- Up to 12 output CBs
- Optional input CB and monitoring

Monitoring and Peripherals

- Advanced system level monitoring
- Panelboard main breaker monitoring
- Branch circuit monitoring
- Serial / SNMP / HTTP Gateways
